Budget Spent

2. **Aim(s)** of this research effort

A.

B.

C.

3. Approach: Provide a short summary (500 words or less). Explain the methodology indicating the joint research efforts put forth by each organization involved in this research. For example: Blood samples were collected daily from the animals (ACRES) and the hormone levels run (LSU AgCenter). The data was plotted across treatment groups (ACRES).

4. Progress to Date

5. Summary of Results and Conclusions: (There is a 500 word limit).

7. Plans for future research: Based on your findings, what additional research is needed?

8. Are there any research publications and/or presentations that have or will result from this research project?

9. How does this research ultimately help save endangered species?

10. Outline the benefits from conducting this research in a cooperative manner in the State of Louisiana? Examples: The XYZ equipment used in obtaining ABC is only available from AG Station of U. Dr. J is the only expert specializing in XYZ and he works at U station in LA.

11. How will this work or the results of this project be used to leverage further grants from federal and/or private sources.

12. Outline how the funds were spent by categories (in tabular format) conducting this project (Part A). This is to be followed by a narrative describing details to support the spending for these categories (Part B). Show budget received and funds spent in tabular form by category (salaries, supplies, equipment, travel, etc.).
